ADVISORY ACTION

- [1] The request for reconsideration in the reply filed on 6/8/2006 has been considered, however, the amendment does not place the application in condition for allowance. While the amendment would appear to overcome the rejection under 35 U.S.C. 112, second paragraph, and the scope of enablement rejection under 35 U.S.C. 112, first paragraph, as set forth in the Office action mailed on 3/7/2006, the amendment to the claims has not been entered because the claims as amended raise new issues requiring further consideration and a new search for reasons described below. See MPEP § 714.13.
- structure defined by the atomic coordinates of Table 8. As amended, claim 1 recites "employing a three-dimensional structure of said protein as produced by a computer using atomic coordinates...according to Table 8." By way of the amendment, the claims are no longer limited to the use of a 3-D structure defined by atomic coordinates of Table 8, but now encompass the use of 3-D models produced using the structural coordinates of Table 8, which, interpreted according to MPEP § 2111, encompasses models of mutant and variant RRF proteins, *e.g.*, homology models, as noted in the specification (see, *e.g.*, pp. 23-24). Such claim limitation has not been previously presented for examination and thus requires further consideration and a new search.
- [3] Applicant's arguments in the amendment filed on 6/8/2006 have been fully considered. In view of applicant's arguments, the new matter rejection under 35 U.S.C. 112, first paragraph (see ¶ [7] of the 3/7/2006 Office action) is withdrawn. However, in

Application/Control Number: 09/980,954

Art Unit: 1656

view of the non-entry of the amendment, applicant's arguments are not found persuasive to overcome the other outstanding rejection(s) as set forth in the 3/7/2006 Office action for the reasons of record stated therein. Even if the amendment was entered, the rejection under 35 U.S.C. 103(a) would be maintained for the reasons of record.

[4] In view of the non-entry of the amendment, the claim status is as follows:

Claims 1 and 52-59 are pending.

Claims 1 and 52-59 are rejected.

No claim is in condition for allowance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Steadman whose telephone number is 571-272-0942. The examiner can normally be reached on Mon to Fri, 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathleen Kerr can be reached on 571-272-0931. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
